In reference to the decisions taken and outcomes obtained during the kick-off meeting in Rome on December 2017 (see below), Professor Comi summaries as follows:

- the status of development recalling the WP ongoing and which tasks were concluded;
- partnership agreement status: the 11 copies are in Rome. In few days, UNIROMA1 and then UNITOV will sign them and a copy will be delivered to each partner. A copy will be emailed to Project Officer;
- the management rules and constraints, which will be deepened during the meeting as reported in the meeting agenda;
- equipment purchase status: the list changes have been submitted to EACEA and communicated to UA and GE National Erasmus+ Officers and we are waiting for formal approval;
- the activities to be performed in the next couple of months in order to complete the CV development; besides, he informed all partners that EACEA asked us information on the implementation process in UA and GE, and we provided them and are waiting for replying in particular on GE proposal ();
- the activities to be performed for teacher skill updates, Special Mobility Strand, Monitoring visits by UA NEO – Ukraine Team, the issues incurred and the road ahead. All these points will be discussed during the meeting.

*Previous Recommendations/Follow Up - Summary of what was discussed during the kick-off meeting in analysing the expert's assessment of application*

Suggestions	Actions	Partner in charge	Deadline (mandatory)
To Pay particular attention to the involvement of local institutions and, in general, local stakeholders	Each UA and GE partner have to inform coordinator about the procedure to implement for involving local institutions and stakeholders. How are the associated partners involved in the current development of SmaLog (e.g. in curriculum definition)? ### WP2: EU-UA-GE Joint Master Programme in SmaLog

Professor Aleksander Sladkowski, as leader of WP2 “EU-UA-GE Joint Master Programme in SmaLog” from the Politechnika Slaska, according to detailed description of the project, presented the exploration of agreements for double/joint degree. Besides, he communicated that the UA/GE

visits of each WG1 subgroups were completed and all partners acquired the base material from EU partners for developing their SmaLog CV. In particular, Professor Sladkowski explained the positions of his institution:

*At SUT, students must attend at last 2 semesters (for SmaLog grant they can try to reduce this period to one semester as an exception). For students from non-EU countries, the fee is paid (1000 euro per semester). Free tuition is provided only to students who have a Polish Card.*

*A student who successfully graduates from his studies must defend his master's thesis. This defence can take place before a special examination board, which may include professors from another university.*

The coordinator pointed out that no fees are allowed to be paid according to the Guidelines for the Use of the Grant and in particular to the Guidelines for the Special Mobility Strand. Besides, the mobility foreseen for SmaLog students can be adapted for meeting SUT requests (at least one semester at SUT).

Subsequently, Professor Norbert Gruenwald synthesized the Schedule for Implementation of a Degree Programme at Wismar University and explained the possible way of cooperation among institution for common/shared educational paths.

The discussion was hence opened and constraints and opportunity were pointed out. Finally, the partners agreed that: students travelling to SUT could obtain the double degree, while students travelling to UNITOV, UNIROMA1 and HSW will obtain a co-badged degree.

Therefore, the UA ad GE partners must define their curricula according to the constraints given by EU partners for such an outcomes.

**Action 3:** UNITOV, UNIROMA1 AND HSW explore the opportunity to have a co-badged degree and provide a feedback to coordinator in order to check such an opportunity with PO.

**Action 4:** Prepare the report of the task including achieved / planned results.

**Action 5:** Share with all partners the data on courses/modules collected from EU and UA/GE partners.

**Action 6:** Provide indications for designing SmaLog Master Curriculum based on meeting in this Rome according to the constraints for co-badged and double degree.

**Action 7:** Provide indications for designing Syllabi based on this meeting and according to the constraints for co-badged and double degree.

**Action 8:** Define the exact date and design agenda and expected outcomes from the meeting.

*WP4: System of UA & GE University SmaLog teachers' skills upgrading*

Professor Olha Kunytska introduced the outcomes of the WP4. Content of each activity, their terms, expected outputs and allocation of responsibilities according to detailed description of the project were presented:

Structure of work on the distance learning course and Sequence of actions;

Rescheduling the date of the WP 4.1. - development of the International Distance Learning Network;

Certificate form;

Rescheduling the date of the WP 4.3. - UA & GE project academic staff formation.

*System of UA&GE University teachers' skills upgrading including International Network and distance learning courses in Advanced SmaLog will be developed during (2nd-8th Project months). Main responsible for International Network development and function will be P6 (NTU) The course can be passed by all interested teachers, but for those who will pass the training in the European universities the courses are compulsory: Selection criteria for staff, high level of English language skills; professional background, the academic performance; relevant experience of teaching/researching; willingness and appropriate attitude to teaching students; motivation.*

In order to have a more efficacy 1<sup>st</sup> Annual Training Seminars on SmaLog issues (WP4.5), Professor Olha Kunytska proposed to merge the meeting with the 3<sup>rd</sup> that is foreseen in Kharkiv and Tbilisi. The discussion was opened and all delegated of PMC agreed to such an opportunity. More details will be provided by Professor Olha Kunytska during the meeting of Kharkiv in next July.

**Action 9:** Prepare the report of the task including achieved / planned results.

**Action10:** NTU (WP leader) must coordinate with WG1 subgroups and with EU partners (UNITOV for freight, UNIROMA1 for Smart, SUT for Passenger, HSW for Traffic) for defining the topic of lessons to put in the distance learning system. Then, the coordinator must be informed on set of topics identified.

**Action11:** The partners of each WG1 subgroups must provide NTU materials to include in the systems according to their skills and experiences.

**Action12:** UA and GE partners define procedures for selecting teachers. The coordinator must be taken informed.

### *WP5: Methodical, organizational and technical support of SmaLog students' training*

Mr. Vasyl Mamray introduced the outputs of the WP5 and communicated that UA/GE members of WG2 groups completed their visits at EU institutions and obtained all info for revising their equipment lists. Content of each activity, their terms, expected outputs and allocation of responsibilities according to detailed description of the project was presented.

Vasyl communicated the guidelines for the purchase of equipment in the SmaLog project, both in UA and EU. In the European legislation for equipment costs under 25.000 Euro the tender is not necessary, but for GE and UA legislation the tender is always necessary, even if the amount of the equipment is even less 25.000 Euro.

**Discussion:** According to WP5.3 “Project web-site, Facebook Page/Group”, the Project web-site language was discussed.

It was agreed that:

GE Universities (coordinated by GTU) use English language and for info that could not be easily accessible to audiences will be also translated in Georgian;

UA Universities (coordinated by ZSTU) use English and Ukrainian languages.

**Action 13:** Prepare the report of the task including achieved / planned results.

**Action 14:** Georgian partners will be responsible for Georgian language of the project websites, and a schedule with LPNU for translating website will be defined and the coordinator will be informed. LPNU is responsible of such an activity.

**Action 15:** Ukrainian partners will be responsible for Ukrainian language of the project website and a schedule with LPNU for translating website will be defined and the coordinator will be informed. LPNU is responsible of such an activity.

**Action 16:** Prepare the report describing the procedures to implement according to: Type of purchases; Partner country and institution constraints

### *WP7: International Quality Assurance System*

Professor Umberto Crisalli presented outcomes and main activities of WP7, and allocation of responsibilities according to detailed description of the project. He also communicated that UA/GE members of WG3 groups completed their visits at EU institutions and obtained all info for revising their developing their IQAS.

**Action 17:** Prepare the report of the task including achieved / planned results.

**Action 18:** UA and GE partners must be coordinated and pushed to develop draft.

### *WP8: Project Quality Control and Monitoring*

Dr. Andrea Campagna presented outcomes and main activities of WP8, and allocation of responsibilities according to detailed description of the project.

He presented the role and responsibilities: P2 and P10 are leading the WP:

P2 could lead EU university (8.3)

P10 could lead GE and UA universities (8.2)

P2 and P10 could share results and prepare reports

P2 and P10 could coordinate the evaluation within PMC (8.1)

He said that the Universities are involved to conduct monitoring and evaluation:

GE and UA universities should agree on a interuniversity evaluation

activity EU universities should do the same (QAS, Bologna process)

He presented also the expected output:

**Institutional evaluation panels.** Project quality and sequence of realization will be controlled at the institutional level by the representatives of the PMC

**UA-GE Cross-university Evaluation.** *UA & GE Interuniversity and Cross-university Assessment of the quality of PC Universities' infrastructure, quality of UA & GE teachers'*

*retraining and volume and quality of students' knowledge will be done by UA and GE academic staff involved in the project upon the results' completing.*

***Evaluation by representatives of EU and employers.** External Evaluation of quality of Study Programme, teaching materials, PC Universities' infrastructure, teachers' professional skills and students' knowledge will be carried out by EU Universities, IMPEER experts, employers and other stakeholders.*

**Action 19:** UNIROMA1 (P2) must complete monitoring tool and share with Partners. UNIROMA1 will start first assessment and can support IMPEER to define an high-level assessment for EU-UA-GE

**Action 20:** to prepare the draft of report of the task developed in the first six months including achieved / planned results

*WP9: Dissemination and Exploitation activities of the project*

Professors Mykola Zhuk and Kovalyshyn Volodymyr presented outcomes and main activities of WP9, and allocation of responsibilities according to detailed description of the project. In particular, they presented the new structure of the website and asked to all partners to provide as soon as possible all data to be put on line.

**Action 21:** To prepare the draft of report of the task developed in the first six months including achieved / planned results

**Action 22:** Define the target groups and lists of outcomes and measurable indicators of progress

**Action 23:** To complete the action recalled in the introduction by coordinator.

*WP10: Management activities of the project;*

Professor Antonio Comi presented WP 10. He said that each partner must identify and communicate to coordinator the list of outputs and measurable progress indicators of each task

## SMALOG 2nd PMC Coordination Meetings minute

---

within the WP taking into account what included in the original application, and every partner must identify the topics of the lessons

Each leader is asked to manage for providing not later than 2 weeks from the end of each WP task a brief synthesis of archived and planned results as well as issues incurred, and the solutions implemented (file: “annex\_c\_table\_of\_achieved\_planned\_results.docx”).

Then, not later than one month from the end of the scheduled (revised version) end of WP, each WP leader is asked to send coordinator:

the Table of Achieved / planned results using the provided format  
and the Deliverables of WP leaded.

All participants to the project must be member staff of SmaLog partners.

The contracts of each involved person must be sent to coordinator.

Professor Antonio Comi explained in depth all financial documents.

**Action 24:** a brief and detailed synthesis of the activities to be performed in the next months will sent to each partners.

### **Monitoring visits**

Professor Comi presented the part of monitoring visits by Erasmus+ NO from Ukraine. With a view to be able to plan well in advance the monitoring visit that will be during the 3<sup>rd</sup> meeting of PMC in Lviv, the coordinator presented the documents sent by NEO – Ukraine Team. The LPNU was asked to manage the local activities and to inform the coordinator on what they expect to develop.

**Action 25:** LPNU with coordinator manages the activities planned for such a monitoring visit.

### **Special Mobility Strand (SMS): eligible a preparatory activities / Financial management and WEB tool**

Professor Maria Olkhova from O.M. Beketov National University of Urban Economy in Kharkiv, NUUE, presented objectives and main activities of SMS, their duration, expected

outputs and 13

allocation responsibilities according to detailed description of the project. The importance to plan in advance such visits in order to be ready with all agreement to be signed before travels.

It was deepened the opportunity to define clearly the objectives of this mobility taken into consideration the duration the Studying and Traineeship period for students and the tasks that will be performed the students in this period. The financial aspects according to SMS were also focused remembering that partners have to co-funded some activities as detailed in the guidelines of the projects funded in the call 2016 and agreed during SmaLog submission.

Drs Michela Carnevali presented Special Mobility Strand and, in particular, the financial management of the grant, individual financial support cover staff members and student costs: travel and subsistence costs. She introduced the *Student/Staff Grant Agreement* and she said that students and staff members must be insured against the risks linked to their participation in these activities on mobility. The web tool was also presented. She presented the purpose of such a tool, i.e. to help coordinators and partners in the management of scholarship of students and staff members; to keep information on selected candidates activities, mobility tracks, credits earned, amounts received; to provide the coordinators with automated reports (Progress and Final reports), which they need to send to the Agency regularly; to provide the Agency with statistics on mobility flows

**Action 26:** UA and GE partners must start procedure for signing the staff and student agreements (see attached file “SMS\_02\_02eac-eacea\_inter\_inst\_agreement\_proposal\_2\_1”)

**Action 27:** The coordinator must be informed on the defined procedure for signing agreements

**Action 28:** UA and GE partners must start the design of criteria and procedure for selecting people, taking into account indication of reviewers and what written in the applications

### Other

All materials of the Advancement & 2<sup>nd</sup> PMC Coordination Meeting will be put on SmaLog website.

**Action 29:** LPNU will put all documents on the website.
