The staff of NTU is infinitely grateful to the SmaLog project and our European partners for the opportunity that every teacher dreams of!

**This is an opportunity to:**

- work together with European colleagues;
- take and use the experience of conducting scientific research;
- the possibility of joint publications in high impacting journals.
- we were able to look at the experience of interaction with employers, which is very important for Ukrainian Universities at the present stage of development and improving the quality of education, which must meet the demands of the labor market today.
